

Hello Year 1!

This project is all about Animals in Art.

Lots of artists like to include animals in their paintings and sculptures.

On the next slide is a painting by a French artist called Henri Rousseau... I hope you like it!

This painting is called 'Surprised!'

Can you see what animal is hiding in the painting? What country might this be set in?

The artist created this painting of a tiger in a jungle even though he never left Paris where he lived. He created it all from his imagination!

Can you tell what the weather is like in the jungle? How do you know?

This painting has another title which is 'Tiger in a Tropical Storm'. We can see that it is very windy! Can you spot the lightning bolt? Does the tiger look frightened or look like he is about to pounce on some prey?

Watch the video to learn more about the painting!

Your Turn!

On the next slide is a how to draw a tiger 'step by step'. Have a go at drawing your own tiger!

Tigers are quite tricky to draw, so just try your best!

You could send me a photo of your drawings if you are able to.
