

Hello Year 6!

Our new project in Art this term is all about **Landscape**.

A landscape is the depiction of natural scenery such as mountains, fields, trees, rivers (I'm sure you knew that already!)

Through this project we will be looking at the work of various artists who have explored landscapes in their paintings and drawings.

Week 1 Task - Perspective drawing with patterns

- You will need an A4 piece of white paper, a pencil and a black pen.
- In order to achieve a sense of perspective you need to draw five or six fields, which get smaller and thinner each time.
- You might like to include a mountain range along the horizon line, for an added sense of depth.
- You can leave your sky blank or include the sun and some clouds.

Adding the patterns!

- Once the outline of your landscape is complete you can start to fill it with patterns!
- Each 'section' of your landscape should be filled with a different pattern. Try not to repeat if you can!
- Go straight in with black pen. Make some patterns darker than others so that they look really striking.
- Include a pattern in the sky - this should be something simple such as dots or dashes.

Here are some examples of simple patterns you can use in your landscape.

Be creative and make up some of your own too!
