

Art Enrichment

At Leopold Primary School, we enhance our Art curriculum in a variety of creative and inspiring ways. We provide specialist support, where children have lessons taught by confident, skilled teachers, who provide engaging and fulfilling projects for all year groups, who learn about famous artists and craftspeople. We make use of many media in school such as paint, clay, collage, and printing to ensure that our children get the most from our Art curriculum.

Leopold Primary School supports children in further creativity in Art using digital technology on websites such as Purple Mash and at home via Seesaw, with lessons created and shared that can be enjoyed using objects and materials found at home.

At Leopold Primary School, pupils use our innovative technology to support them with their learning, be it for research or taking pictures of their learning
