

Friday 26<sup>th</sup> May 2023

Dear Parents and Carers,

At Leopold, our school councillors wanted to highlight our focus on the theme of kindness and decided to spread the message across our school. To join their initiative, the school have created kindness posters that we are in the process of finalising and displaying around our school building. Here are some of our words of wisdom:

Climate change affects us all and our Eco warriors have been working hard to ensure our school is eco-friendly. The visited every room in our school building (classrooms, lunch halls and even Miss Mollett's office) to assess if we are an eco-friendly school. In order for the classes to pass the eco warrior inspection they needed to ensure that they are using the recycling bins provided in each class along with switching off lights and the computer when not in use. The few classes that did not pass the test were informed of the necessary changes needed to be made before their new deadline. Eco warriors carried out another inspection and all classes passed the test! To show their appreciation, Eco-warriors presented the classes with a certificate to state that we are indeed eco-friendly. Please help us to make our planet a better place by recycling.

Reading is fundamental!  
Promoting the love for reading is extremely important to us at Leopold and our prefects and ambassadors have been given the opportunity to read with our Year One's. "They read to us so beautifully, using their phonics skills to sound out any unfamiliar words" whispered Prefect Scarlett. Reading has skyrocketed at Leopold and we are extremely proud of the pupil's success.

Yours Sincerely,

Ms Patel  
Senior Deputy Head
