

# Curriculum Overview

## MATHS

Place value and the four operations

In maths this term, students will be consolidating their knowledge of multiplication and division. Students will be able to use dienes, counters, place value charts and the column method in order to grasp the concepts of place value and place holders.

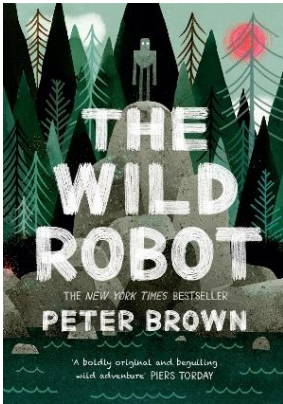

## History

This term, pupils will learn all about the Romans. Children will develop an understanding of what happened when the Romans came to Britain. They will learn about Roman invasions, develop their chronology skills by looking at timelines, and the impact the Romans had on Britain.

## ENGLISH

In English this term, children will be exploring 'The Wild Robot' by Peter Brown. They will be looking at writing features to be able to plan and write their own narratives. They will also be writing diary entries in the role of different characters using different types of sentences. Children will also be able to recognise the difference between informal and formal letters and understand the different features that are used.

## RSE

Respectful relationships

This term in RSE, children will be exploring the themes of what a good relationship is. They will be discussing what a healthy or unhealthy relationship is. They will be looking at kind words and how to show good manners.

## Art

Sculpture

In Art this term, children will explore musical instruments and how to create them out of different materials. They will create maracas in their first lesson made of recycled plastic bottles, items found around the classroom and rice.

## PE

Gymnastics

This term, Year 4 will be learning different concepts of gymnastics. They will be looking at travelling, shape, balance, rolling, jumping and sequence building in gymnastics.

## RE

In RE this term, the children will be discussing and exploring the concept of sin in different religions. They will be discussing what it means for there to be good and bad in the world, and what different religions view 'sin' as.

## MUSIC

In music this term children will be learning about changes in pitch, tempo and dynamics. The theme will be 'Rivers'.

## SCIENCE

Animals, including humans.

This term, children will be learning about digestion and teeth. They will be exploring the human digestive system, and the names of their teeth. They will also investigate what damages teeth and how we can look after them.

## SPANISH

Family

In Spanish this term, student will be learning how to communicate about different aspects of family.

## COMPUTING

Pupils' will be creating spreadsheets. They will find out how to add formulae to a cell.
