

# What is happening in Geography at Leopold this week?

Reception pupils have been learning how to use a globe.

They have been using a giant inflatable one outdoors and a stand one in the classroom to identify what the colours mean and what our world looks like. Young geographers at

Years 3 and 4 have been using digital 3D scenes to explore countries in Europe and the climate zones around the world. The digital maps are fully manipulatable, allowing children to rotate, zoom in and out of areas of interest.

GLASGOW

# COP26

IN PARTNERSHIP WITH ITALY

In Key Stage 2, we have been keeping up with the largest world leaders' convention ever held in the UK – The COP26. It is currently taking place in Glasgow, Scotland, with 200 representatives from all over the world discussing climate change and solutions to the problem which affects all of us.

Year 5 have been learning about sustainability and practices of people and companies that are sustainable and unsustainable. These skills will prepare them for life in the ever-changing society that is increasingly concerned for our environment and how we treat our planet Earth.

# What's to come?

Reception and Year 1 children will be learning outside the four walls of the classroom in around the school fieldwork. They will identify natural and human-made features of the local environment and to use geographical vocabulary to give and take directions.

Year 6 will be heading off to Stanmore Country Park to do fieldwork. They will be mapping and following routes around the park based on a map and practising orienteering.

Year 2 will be doing fieldwork in a Wetlands Centre. They will be exploring natural features, habitats and studying how natural objects are protected in modern day busy cities.
